Oregon HAVA Grant Funding Utilization

The Federal grant will allow Oregon to build a new central voter registration database. The new system will replace our original database that dates back to original HAVA implementation. It will allow us to provide a more secure database, and more efficient and faster data transfers between the state and counties and DMV. The Secretary of State intends to use all \$ 7,209,045 of these 2020 HAVA federal funds and state match to build the new centralized voter registration database.

We expect this project to take three years and we intend to deploy the new database in 2023.
