---

Brian,

I uploaded what I believe is all relevant material to the VRT this evening for our Application for the eLect Quad Audit 4.3.0 Voting System. I do have plenty of other documentation available that may be of interest early on that I am happy to provide but on the VRT I currently don't have tabs to do so. If you would like the rest of the TDP or specific pieces let me know and I will upload them similarly to how we did last time through the VRT after the initial application process.

At this time EIC would also like to withdrawl our application for the eLect Voting System as we will no longer be pursuing that certification per our previous discussions. Again, if any additional information regarding that is needed I can provide upon request.

We will contract officially with Pro V&V tomorrow morning, 10-23-2015, and begin the TRR process with the EAC's approval. Our Summative Usability Testing is currently underway and a report will be available the week of 11/2/2015. I will upload this as soon as I have a final draft in my hands that week.

Let me know if I am missing any items here or listed above that would prevent your organization from reviewing the application and moving forward if accepted. Thanks

Dave
