Testing and Certification Program Director  
U.S. Election Assistance Commission  
633 3<sup>rd</sup> Street NW, Suite 200  
Washington, DC 20001

Dear Program Director:

Election Systems & Software respectfully requests the EAC to accept this implementation statement for certification of EVS 6.0.6.0. This modification release includes the following hardware: ExpressVote XL™ Full-Face Universal Voting System, ExpressVote Universal Voting System hardware 1.0, ExpressVote Universal Voting System hardware 2.1, DS950 Central Tabulator, DS450 Central Tabulator, DS850 Central Tabulator and DS200 Precinct-Based Tabulator. In accordance with the 2005 VVSG v1.0, Volume I, Section 1.6.4, I have included the following information.

1. **EVS 6.0.6.0 System Overview** – This document contains system flow diagrams
2. **Supported Functionality Declaration** – Describes the capabilities supported by the voting system
3. **TDP Trace Matrix** – References all documentation that supports this release

ES&S Voting System 6.0.6.0 (EVS6060) presents a fully integrated suite of election management products that fully comply with the EAC *Voluntary Voting System Guidelines, Version 1.0*. This release introduces the DS950®, a new high-speed central count scanner and tabulator with ballot sorting capabilities.

EVS6060 introduces light blue 4GB, 8GB, 16GB and 32GB USB flash drives with modernized USB capabilities to replace end-of-life dark blue USB flash drives. This release also introduces a 256GB USB flash drive with capacity for central count results export capability.

Additionally, this release introduces end-of-life hardware replacements for batteries for both versions of the ExpressVote.

With appreciation for the Commissions' assistance I am;

Respectfully:

A handwritten signature in purple ink that reads 'Sue McKay'.

Sue McKay  
Vice President of Federal Certification
