### Approval of Voting System Testing Application Package

Dear Ms. McKay,

The U.S. Election Assistance Commission (EAC) has completed the review of the modified application package for the Unity 3.4.0.0 voting system. The application has been accepted.

Election Systems & Software selected Wyle Laboratories as the lead VSTL for this testing engagement, and testing will be conducted to the *VVSG 2005*. If the system meets the criteria for a grant of certification, the system will be assigned the number "ESSUnity3400," as per your request on the application form (EAC-002C) approved 7/29/2011.

Finally, we strongly encourage you to regularly visit the EAC's Web site ([www.eac.gov](http://www.eac.gov)) for the latest Notices of Interpretation and Clarification, news, program manuals, and updates. The exact location of this information is: <http://www.eac.gov/program-areas/voting-systems>. The information contained in the Notices of Interpretation and Clarification is critical to understanding testing standards and program requirements. It is a manufacturer's responsibility to ensure they adhere to all procedural requirements of the program.

If you have any questions or need further information about this matter, please do not hesitate to contact us at your earliest convenience. We thank you in advance for your cooperation in this matter.

Sincerely,

A handwritten signature in black ink that reads "Brian Hancock". The signature is written in a cursive style with a large initial "B".

Brian Hancock  
Director of Voting System Testing and Certification
